FILE COPY

Dear Ms. Jensen:

Re: Road Modification, Southwestern Portland Cement Company,
DOE/023/025, Juab County, Utah

We have received a copy of the BLM approval letter for the road modifications at Southwestern Portland's sandstone test site (DOE/023/025). Although the disturbed area is now in excess of two acres, the Division will continue to permit this site under the Declaration of Exemption category with the following understanding:

1. All site disturbances and access roads are to be reclaimed to the satisfaction of the BLM if the tests prove unsuccessful.
2. A Mining and Reclamation Plan will be submitted to the Division if the tests are successful.

Thank you for your cooperation in keeping us informed as to the progress of your mining operations. Should you have any questions, please contact me or Frank Filas, Reclamation Engineer, of the Division's technical staff.

Sincerely,

D. Wayne Hedberg
Permit Supervisor/
Reclamation Hydrologist
